

Sustainability

BANK OF AMERICA
CHICAGO 13.1

Incorporation of environmentally and socially responsible practices is an important aspect in the planning, preparation and execution of the Bank of America Chicago 13.1. We would like to thank participants, volunteers, community partners, sponsors and spectators for helping us create a more sustainable event.

\$708,000+

raised through the event's charity program will create a positive impact on Chicago's West Side by empowering youth, advancing health equity, and supporting community development

9,322

pounds of material, including stretch wrap, was recycled

\$4,500+

in donations were made to local organizations and schools who volunteered as a group at the event

Participant shirts

are made from 100% recycled polyester, using less energy, water and oil

\$2,093

has been donated from the Wellness Walk since 2023 to the Garfield Park Advisory Council to support the park's programs and facilities

Bib 321

was reserved for a neurodivergent participant to ensure representation of neurodivergent athletes in endurance races, a movement started by Chris Nikic

1.31-Mile

Wellness Walk produced in collaboration with West Side residents to promote and celebrate wellness and movement

86 youth

from Chicago's West Side participated since 2023 in free races covering a range of distances to motivate and inspire the next generation of runners
